

OMNI Medical Care Announces Its Grand Opening

New comprehensive medical care facility provides a unique blend of emergency and occupational health care.

OMNI Medical Care today announced the grand opening of its emergency, occupational and family medical practice at 1400 Route 300 in Newburgh. The announcement was made by Dr. Glen S. Kay, M.D., F.A.C.E.P., company founder and principle physician. "Our philosophy is to provide comprehensive, state-of-the-art health care in a relaxed, caring neighborhood environment," he said.

The newly renovated facility has six exam rooms and offers X-ray, ultrasound, on-site laboratory and massage therapy. OMNI Medical Care serves the medical needs of the Hudson Valley in three key areas:

1. Occupational medicine – for area business and industry
Including compliance with government regulatory associations for health screening and training
2. Walk-in emergency care
Quickly treating most emergency situations, virtually eliminating a trip to an emergency room
3. Family practice
Including primary medical care for health screening and school/sports physical exams

Dr. Kay states, "We've assembled an experienced team of practitioners with extensive expertise in emergency care and occupational medicine." He continues, "This means that in an emergency, patients can be treated quickly at OMNI Medical Care and if necessary, transported to a hospital." "And our in-depth knowledge of occupational compliance procedures makes it easier and cost-effective for area businesses to comply with regulations." OMNI Medical Care supplements their occupational practice with an education and training program from basic first aid to terrorism and emergency preparedness.

Dr. Kay is optimistic about providing comprehensive quality health care for the Hudson Valley. Dr. Kay is board certified and has over 20 years experience in emergency care - most recently as an attending emergency room physician at St. Luke's Hospital where he retains admitting privileges. He serves as medical director for several area EMS agencies and the Academy of Medical Arts and Business, Harrisburg, PA.

OMNI Medical Care is located in the plaza across from the Newburgh Mall. They're open weekdays from 9:00 a.m. to 6:00 p.m. with extended hours till 8:00 p.m. Monday and Wednesday. Most insurances and major credit cards are accepted. OMNI Medical Care can be reached at (914) 566-OMNI (6664) or visit their Web site at www.omnimedicalcare.com.
